

Webinar 3: Tuesday, April 9th

10 am to 12 pm

Practical approaches to positively impact economics of pasture based livestock systems

Meet the Speaker:

Cheryl Cesario -- American Farmland Trust

Since 2004, Cheryl has worked directly with dairy and livestock farmers on grazing planning, navigating regulatory requirements, cost-share programming, assisting with farm business systems planning, and big picture goal setting. Her primary goal is to provide practical, economically-focused assistance to support farmers in building strong and resilient businesses. As a Livestock and Grazing Specialist with American Farmland Trust, Cheryl connects with farmers across New England.

The webinar is open to service providers and farmers
