Online Discussion Group

A CONVERSATION ON PASTURE AND CLIMATE CHANGE

Wednesday, April 9, 2025

An informal discussion to share experiences and ideas about pasture management in the face of climate change. Connect with fellow farmers and practitioners from Southern New England, discuss challenges, and explore solutions together.

All events will be held from 10 am to 12 noon and are open to service providers and farmers. There is no fee to attend.

Please register in advance.
