

# Pasture Based Systems for Sustainable Livestock Production

## Webinar 1

MANAGING A PASTURE BASED SYSTEM IN TODAY'S CHANGING CLIMATE

Wednesday, February 12, 2025

Sara Kelemen and Richard Watson (American Farmland Trust)

## Webinar 2

PASTURE ADAPTATION TECHNIQUES FOR A CHANGING CLIMATE -

*Extending the grazing season and forage needs*

Wednesday, March 5, 2025

Leanna Duppstadt (Penn State Extension)

## Webinar 3

PASTURE ADAPTATION TECHNIQUES FOR A CHANGING CLIMATE -

*Winter and bale grazing*

Monday, March 31, 2025

Justine Deming (Univ. of RI)

## Online Discussion Group

A CONVERSATION ON PASTURE AND CLIMATE CHANGE

Wednesday, April 9, 2025

An informal discussion to share experiences and ideas about pasture management in the face of climate change. Connect with fellow farmers and practitioners from Southern New England, discuss challenges, and explore solutions together.

All events will be 10 am to 12 pm. Open to service providers and farmers. No fee to attend. Register in advance.
