

2025 Tri-State SARE Project Webinar Series
Webinar 3: Wednesday, March 31, 2025

10 am to 12 pm

***Pasture Adaptation Techniques for a Changing Climate –
Bale Grazing***

Meet the Speaker:

Justine Deming -- Univ. of Rhode Island

Justine Deming is a clinical associate teaching professor of animal management at the University of Rhode Island where she has been working since 2018. Prior to URI, she pursued a masters in animal welfare in Canada and completed her doctorate work on dairy farm labor efficiency and management in Ireland. Dr. Deming has a passion for grass-based agriculture and has had the pleasure of teaching various livestock management courses revolving around pastured animals, including a course specifically on pasture and grazing management. Her current role includes both teaching and extension.

***Additionally, hear first hand from several livestock farmers
who have implemented bale grazing on their farms.
Listen as they share their story!***

**The webinar is open to service providers and farmers.
Free to attend. Register in advance.**
